

# Packaging with *Tomorrow's* Technology

FULLY AUTOMATIC SLEEVE WRAPPER - STACKER

## MAKS SLW54

A PRODUCT OF MAKS AUTOMATION PVT LTD

[www.maksautomation.com](http://www.maksautomation.com)

## *Packaging with Tomorrow's Technology*

The **MAKS SLW54** is an outstanding sleeve wrapper for carton collating and wrapping with a unique design and product handling capabilities.

Carton boxes from 10mm width to 150mm can be handled in the machine without any product damage. Thanks to the special deflector design.

The simplicity of design enables unskilled operators to work on the machine effortlessly and its flexibility allows quick changing over and adjustments to be made with minimum down time.

With our compact design, clear overview and easy access, all SLW machines meet the high requirements of GMP standards.

After all,

*“Quality is our Motto”*

## Packaging with Tomorrow's Technology

Serving at the end of the production line, **MAKS** products play a significant part in the whole process chain.

User-friendly operation, easy access and trouble free operation of the packaging unit are the determining factors in a successful operation of the entire production process. The **MAKS** SLW is a machine you can rely on in the most demanding production conditions

This system provides:

- Infeed system adaptable for all type of product handling
- Operator panel with push button control
- Hot knife sealing system
- Easy operator accessibility and change over
- Sealing Jaw height adjustable module
- Up-to-date programmable logic controller and easily accessible operating elements

Non-standard equipment features:

- Knife edge conveyer
- Top hold down conveyer
- Infeed conveyer with transverse rollers
- Driven outfeed conveyer
- Timing screw
- Dual film holder
- Fallen down product detecting sensor
- Wash down option (with drip tray)
- Castor wheel
